

WILL REPORT TO THE GERMAN CONSUL

SIGMUND STERN RECEIVES A LETTER FROM FATHER ASK ING HIM TO BE READY

A father in Germany summoning his son, in America, to be ready at the call to serve his country, gives an idea of the unswerving loyalty of the German to the Fatherland. Sigmund Stern, advertising manager at the Palace, this morning received mail from Germany. Among the letters was one from his father telling of war conditions as he sees them, and it is evident that the father has faith in the ultimate triumph of the German arms. He tells of one son who is serving in the army in East Prussia, against the Ruessians, and who was recently wounded and is now in the hospital. He reads his son Sigmund a lesson in patriotism and lays it up on him heavily, as a duty, that he be ready to return to Germany if called. Sigmund Stern belongs to the reservists of 1910 and his father sends him his pass so that all may be in readiness against the day that the son is called. The son will report to the German consul at St. Paul and will do so at once.
