Dear Participants:

Our annual Student Academic Conference is a Spring Semester highlight. Since 1998 it has provided an outlet for student research and creative work. Over the years thousands have shared their knowledge in an environment that encourages inquiring minds and faculty mentoring. It's an activity that underscores our Mission Statement: Minnesota State University Moorhead is a caring community promising all students the opportunity to discover their passions, the rigor to develop intellectually and the versatility to shape a changing world. The conference offers a stage for new ideas from the next generation of researchers and leaders. It advances intellectual development and challenges students to effectively communicate their knowledge. Defending research in a supportive community of student and faculty scholars is a great way to experience personal and professional growth. Congratulations to the student participants, faculty mentors, and the Student Academic Conference planners. A very good idea has become a wonderful tradition!

Edna Mora Szymanski, PhD
President

Minnesota
STATE COLLEGES
& UNIVERSITIES

Dear Minnesota State University Moorhead Students, Colleagues, and Friends:

As has been true in the past, I am pleased to join with the Minnesota state University Moorhead academic community once again to celebrate the accomplishments of all who are a part of the Annual Student Academic Conference.

This thirteenth anniversary of the conference marks yet another grand occasion for our students to be recognized. I know that this year and those to come will continue to bring the opportunity for student scholarship, creativity, and achievement to be recognized university-wide. I have been personally proud and grateful to witness the growth of the Annual Student Academic Conference. Its support from President Edna Szymanski and her predecessors must be acknowledged.

The Minnesota State University Moorhead faculty, staff, and student learners deserve congratulations on all of their work to make the conference a success. On behalf of the Minnesota State Colleges and Universities Board of Trustees and your system office colleagues, best wishes for discovery, enlightenment, and fun at the 2011 Annual Student Academic Conference.

Sincerely,

James H. McCormick,
Chancellor, Minnesota State Colleges and Universities

On behalf of the entire Student Affairs Division, welcome to this year's Student Academic Conference. The tradition of excellent opportunity for undergraduate research continues through this unique campus event. Your participation ensures that you have taken the initiative to further your undergraduate education in a way not found on most campuses. Having personally attended nearly all of the Student Academic Conference for the past decade, it has become clear to me that the depth and breadth of information and learning about unique topics has been well documented through oral and poster presentations. I look forward to again participating in this year's event and hope that your involvement becomes one of the most memorable experiences during your tenure here at MSUM.

Warren Wiese

Warren Wiese
Vice President of Student Affairs

Greetings,

The Faculty Association at MSU Moorhead is pleased to send congratulations to all of the students who are participating in this year's Student Academic Conference. We know they have learned much in their research and preparation for today. We also know that the student's achievements are a direct result of the mentoring provided by our faculty who gladly embrace this opportunity for student growth. Congratulations also to Prof. Andrew Conteh and to Prof. Richard Lahti for their leadership in making this exciting and complex day possible.

Cindy Phillips
President
MSU Moorhead Faculty Association

To the Participants and Attendees of the MSUM Student Academic Conference (SAC),

Spring at Minnesota State University Moorhead is always a special season. Long winters begin to melt away; birds return with their songs; warmth returns to our lengthening days; budding romances bloom; and yes, the Red River reminds us that, no matter how hard we try, we are still intrinsically tied to the forces of nature. Spring, to many students at MSUM, is special for another, more academic, reason: conferences. It is during the final weeks of the academic year that a year of meeting new friends and colleagues culminates with conferences where we can celebrate the bonds that tie us together in friendship and all that we have learned together. One such important fixture at MSUM is held here on campus every spring: the MSUM Student Academic Conference.

Academic Conferences are an invaluable too in the development of young academic minds. All too often the work we do as students is completed with little more intent than that of attaining a good grade; therefore, it is valuable only to ourselves and its worth is quantified by a grade. It is here that the SAC provides the students of MSUM with a priceless opportunity: to challenge ourselves to create knowledge and to present that knowledge to our peers, the public, and professors. To the young academic, the rewards of forming an original thesis, developing it, and then finally presenting one's hard-gotten work to strangers and experts is a rewarding and fulfilling experience. At MSUM, there is nowhere else that this kind of learning can be achieved as well as it is at the annual SAC.

To the participants of the SAC, I would like to thank you for presenting your work at this year's conference! I have no doubt that you will teach your fellow Dragons something this week. To the attendees of this year's SAC, thank you for attending! The most rewarding thing about presenting is receiving interesting questions and feedback from one's peers. I encourage you to attend as many presentations as you can and ask the presenters any questions you may have. To the faculty members who have taken the time to chair and review this year's presentations, thank you! Without your guidance and continued support, the SAC would not be possible. On behalf of the MSUM Student Senate, I thank you all for participating in this year's Student Academic Conference! Good luck!

Regards,

A handwritten signature in black ink, appearing to read "Allan Branstiter". The signature is written in a cursive style with a large, looping initial "A".

Allan Branstiter
MSUM Student Senate President

13th Annual Student Academic Conference

April 19, 2011

The 13th annual Student Academic Conference embraces MSUM's commitment to undergraduate education and engagement.

Building upon proven excellence in the arts, sciences and industry, the SAC extends the university's exceptional investment in undergraduate research, providing students with the skills, abilities and aptitudes essential to life-long learning, global citizenship and professional excellence. Incorporated into courses and projects across the curriculum, student research presented at the SAC advances the frontiers of knowledge across fields, training students in rigorous research methods, critical thinking and effective communication.

Now a highly anticipated and esteemed component of MSUM's mission and academic year, the Student Academic Conference proudly showcases student accomplishment and invites the entire community to participate in this year's exciting conference.

—Stephen Hamrick, Ph D., MSUM English professor

2011 Academic Conference Keynote Speaker

Dr. Wade Swenson

Dr Wade Swenson, a 1995 graduate of MSUM, is currently a medical oncologist and hematologist at Lake Region Healthcare in Fergus Falls, Minnesota. The experiences he obtained at MSUM were influential in shaping his career path. He participated in undergraduate research in the Chemistry Department for three years during his time at MSUM. He feels that the skills he developed during the research experience were useful in several aspects of his clinical education and career development. A familiarity with research methods and experience presenting research findings provided a skill set that paid dividends throughout the medical education process. A variety of other experiences and activities at MSUM provided a foundation for future career development.

Student Panelists

Klarissa Pudwill **Representing Arts and Humanities**

I am a sixth year student, in my third and final year at Moorhead, after transferring from Bismarck State College. I will graduate with a Bachelor of Arts in Theater Performance with an emphasis in Musical Theater. This is my first year presenting at the SAC. I am pleased to be presenting a musical that I directed, *The Musical of Musicals, The Musical!* I am a recipient of the Mark Robert Lukac Scholarship Award for this school year. I have been a part of the MSUM's Straw Hat Players for two years and have sung the National Anthems and numerous school activities. I am excited to put into practice the knowledge and experience that I have received at MSUM in my career after I graduate.

Suzanne Al-Kayli **Representing Social and Natural Sciences**

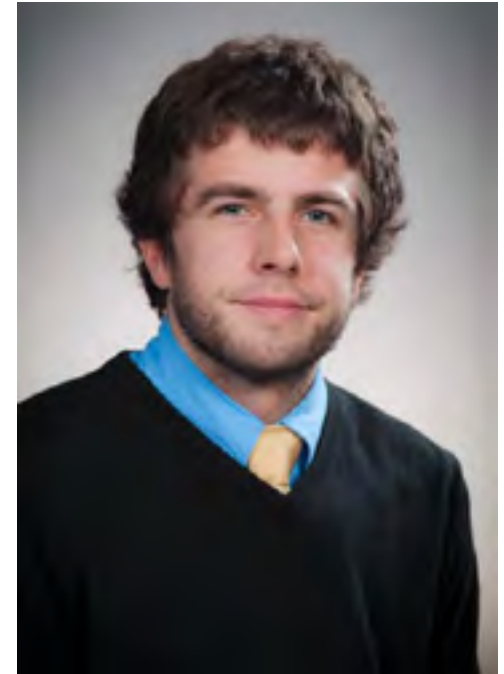

Born and raised in Fargo, ND. I am currently in my last semester at MSUM for a dual degree in Sociology and Political Science with a minor in Women's Studies. I have presented 3 different times at the SAC in the last two years, and will be doing so again this year. Sociology is my passion, I love to use theory and discuss events that are occurring in our modern society, what the implications of those actions means, and how people internalize their social selves. I hope to be going to graduate school after I take a well deserved break for one year.

Student Panelists

William Scott

Representing Education and Human Services

My name is William Scott and I am a 5th year senior in Communication Arts and Literature Teacher Education as well as Social Studies Education. I was born and raised in Fargo, graduating from Fargo North High School in 2005. My interests include staying current on teaching methods in both of my disciplines.

Kyle Blake

Representing Business and Industry

I am in my last year at MSUM finishing a degree in Business Management with an Economics minor. I am passionate about strategy, leadership, and innovation. My career goal is to leverage my strengths with like-minded individuals to create value and improve our changing world. I have represented students and advocated for their interests for more than two years as a student senator from the College of Business and Industry and through work with the Minnesota State University Student Association. I was appointed to the Dean's Student Advisory Board for the College of Business and Industry in 2009. I graduated from North Dakota State University with a degree in Food and Nutrition, Didactic Program in Dietetics, in 1989. I participated in experimental foods research while earning my first degree and will be presenting with two other students at this year's Student Academic Conference.

Living bald, beautiful, bold

Written by: Charly Haley

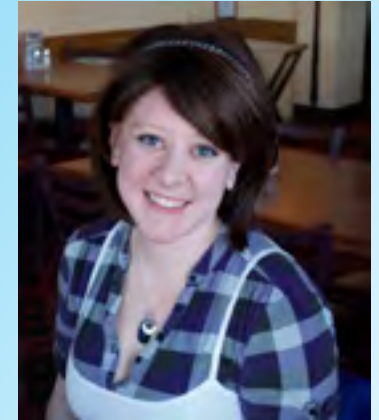

Sophomores Britt Lazur and Courtney Johnson are presenting “Beautifully Bald: Learning to Live with Alopecia through Self-Disclosure and Friendship” through the Communication Studies department, with Dean Denise Gorsline of the university college as their adviser.

The oral presentation will tell the story of Lazur’s struggle with alopecia, a skin disease that causes hair loss, and will describe how her friendship with Johnson has helped them both realize the disease isn’t necessarily negative and can be utilized as an opportunity for growth.

“Primarily through the use of personal stories, we’ll discuss how self-disclosure can strengthen interpersonal relationships and help us grow individually, socially and professionally,” Lazur said.

Johnson and Lazur didn’t know each other before they were randomly assigned to be roommates in the dorms nearly two years ago. As their friendship grew, Lazur disclosed more about herself and her emotional struggles with being bald due to alopecia to Johnson. Through this, they were able to learn.

Lazur, an English education major, will describe how living with alopecia will benefit her professionally as a teacher in the future.

Above: Britt Lazur, Photos provided by Courtney Johnson

“It really allows me some perspective,” Lazur said. “I can help my future students love themselves and be more comfortable with themselves because I’ve been through that. I have a similar experience that’s very obvious: losing your hair.”

Johnson, a photography major, will show how alopecia helped them learn about societal beauty and how it has helped her grow professionally with photography. She will be sharing photographs from a photo shoot with Lazur last semester.

Courtney Johnson

“Through the use of photography, we’ll discuss the social norms of ‘beautiful,’” Johnson said.

Understanding LSD

By: Ryan Kartes

Manasvi Kulshrestha, a bioscience major at Minnesota State University Moorhead, will be presenting her topic “Understanding the neurological basis of LSD” at the Student Academic Conference on April 19, 2011.

Kulshrestha says that she chose to do research on the effects of LSD because she was interested in how it interacted with the human brain, as well as the fact that there is little, if any, research available in scientific journals concerning its use.

“We know that something is happening in the brain when a person takes LSD,” says Kulshrestha, “We just don’t know exactly what.” Kulshrestha said that LSD works by interfering with neurotransmitters, which are like the brain’s messengers, and desensitizing them. Most often it is the serotonin receptors. “LSD is known to affect people’s mood, attention spans and memory,” Kulshrestha says, “but it can also be used to treat schizophrenia. It creates a condition similar to schizophrenia in the user, so if we can understand how a schizophrenic feels, we can provide better treatment for them.”

Kulshrestha said that the reason LSD isn’t being used as a treatment, or even considered as a viable option worthy of study, is that it’s

illegal. “I have not seen any convincing reason for it to be illegal,” she said, “Yes, it was being abused, but it’s highly misunderstood. People are so ignorant; it may have bad qualities to it, but that doesn’t mean it doesn’t have any good ones as well.”

Kulshrestha said that preparing for the conference has been a very rewarding experience, and she hopes that her presentation is very informative. Her goal is to clear up some of the ignorance about LSD, as well as the stigma against it. “I can apply my research and thoughts to my project as a learner, but at the end of the day, it is how I feel about my topic that is presented,” Kulshrestha said.

Art student sheds light on pharaohs of Egypt

Written by: David Ferrari

In a time before Leonardo's "Mona Lisa," and Michelangelo's "Sistine Chapel," Ancient Egypt stood with its iconic pharaoh. The portrayal of the pharaoh and his long conical beard has been a staple throughout art history. However some like Catherine Wack, better known as Cat, question the significance of the beard.

"In ancient Egyptian art you'll have depictions such as sculptures and paintings of the same pharaoh and in one

Cat Wack

piece you'll have the really long conical beard but in another piece there will be the same pharaoh, and he doesn't," says Cat. During Minnesota State University of Moorhead's Student Academic Conference, Cat will demonstrate her thesis for the reason Ancient Egyptian pharaoh's beards mysteriously disappear and reappear, "I will be discussing and proving my view and my point of what conical false beards meant to the ancient Egyptian audience and what their part was in iconography."

Cat is going for a double emphasis of a drawing and art history major, "I've always been interested in art and it's pretty much what I focused on in high school. I did not have anything that I was remarkably good at other than that, so going into college it was pretty much the one thing I had going for me." Cat's study on ancient Egyptian art began a few semesters ago in a class studying Egyptian art history. She was unable to achieve a grade due to health issues and therefore she is taking part of the annual academic conference to make up for it. She will be using visuals and discussing her thesis throughout the power point.

Volunteer: All Paws Down

Presented by: Catherine Cork

Written by: Dane Kipp

Black and white photos of animals and the sad songs of Sarah McLachlan may make eyes water and get people thinking about their local animal shelter, but not many people actually do something to help.

Kathrine Cork, an MSUM student from Craig, Colo., is an exception. She's part of a group giving a presentation called "Volunteer: All Paws Down" and it's about the importance of humane societies, and how people can help out their local shelter. Cork joined the group after its initial formation but that doesn't mean she isn't passionate about the subject.

"I did some volunteering back at the shelter in my hometown all through middle school and part of high school," Cork says. "It's definitely something I care about." She encourages others to volunteer at their local shelter, though she warns "not all jobs are as fun as playing with cute dogs and cats."

Volunteer work involves caring for the animals: Grooming, cage cleaning, water refreshing and exercising them. Volunteers are also

expected to help potential adopters view the animals and make a decision on whether they'd like to take an animal home.

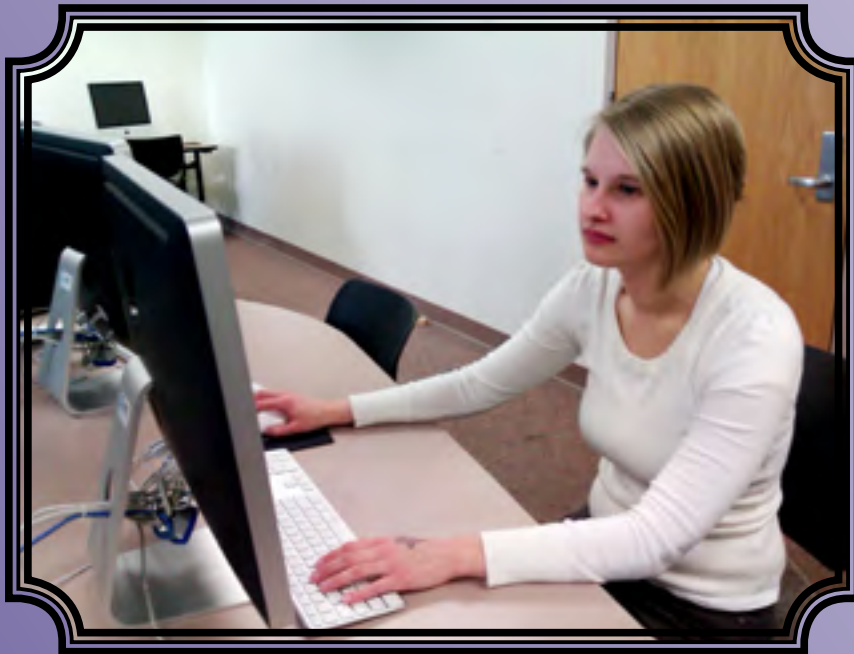

For those curious about adoption, Cork explains "you can actually do a foster home for a pet if you're not sure you're ready." Fostering an animal gives it a good home until someone decides to adopt it. The Humane Society tries to provide a high level of care, but individual care at a foster home generally provides more attention and care for the animal. If the foster care person decides to keep the animal, he or she is able to officially adopt it; otherwise he or she can care for it until a permanent owner is found. Volunteering or foster care is a large time commitment. Those who would like to help but don't have the time can donate money to the shelter, Cork says. Donations are used to help provide food, kitty litter and other items the shelter needs to care for animals. Those interested in learning more should watch Cork's presentation during the Student Academic Conference.

It's Your Turn To Take Care Of Them

By: Ryan Ellingson

The first thing you notice when you meet Kaley Fisk is her smile. From the moment she walked into the interview to the moment she left, her passion for nursing was apparent in her smile.

Fisk grew up in Langdon, North Dakota, with her parents and brother. After graduation, she decided to attend Minnesota State University Moorhead to follow in her grandmother's footsteps and become a

nurse. MSUM has an excellent accelerated nursing program, which suited her well.

Fisk, a senior graduating this spring, is a presenter at this year's Student Academic Conference.

Her poster on "How to care for the Elderly in a Rural Community" fills a requirement for graduating. Fisk's work at Bethany Homes gave her inspiration to choose this topic. When asked about the intent of her project Fisk said, "I am just trying to educate people about all of the problems that elderly people go through."

Think Different. Eat Different. Buy Different.

By Grant Nelson

Two Minnesota State University of Moorhead students will be spending their spring break studying farmers markets in Costa Rica.

Sophomore Heather North and junior Phillip Schotte will be presenting, “Farmers market vs. large American supermarkets” at this spring’s student academic conference.

Schotte and North will be in Costa Rica for 10 days studying the countries small farmers markets.

Schotte, a marine biologist major from Rochester Minn., said that in Costa Rica, the food markets are very different compared to the Wal-Mart’s of America.

“There is a big difference in the culture of buying food in Costa Rica than how we buy in America,” said Schotte.

North, a Grand Forks, N.D. majoring in biology, explained that the markets in Costa Rica are run on a much smaller scale.

“In a lot of other countries, the producer of food also sells the food, unlike in America.”

North and Schotte will share their experiences at MSUM’s student academic conference in April. The two students hope to teach how the American way of buying food is not exactly the world’s way.

Filming to Help Local Community

By Matthew Liedke

This year's Student Academic Conference will involve many students from the film department sharing their knowledge of the art. One such student is Joshua Resch from Champlin, MN.

As a junior majoring in film with an emphasis in video production, Resch will be presenting a film he produced himself. The film is for the Recovery Worship, a church that helps people recover from various addictions. Resch says he will be screening the film and will follow with a presentation of how he and his group went about filming it, what it was like talking to the clients, and what the documentary is about.

This is Resch's second time appearing in the conference. During last year's SAC he said it was "a really fun experience." Since last year, Resch became fully involved in the school's film department helping others with film shoots, producing films, making his own films, and also being on the chief executive board of the Cinethusiast Club. When

his advanced video production professor asked if anyone wanted to be a part of the conference this year Resch went for the opportunity, "I thought that I would participate this year so people could see my work."

Resch hopes the film will give others "a look into the Fargo-Moorhead community and at the work that we as film students here at MSUM are producing for our very own community."

Oh Behave.

Written by: Rachel Zoerner

Romantic relations affect all college students, but understanding the behaviors we exhibit due to them is hard to explain. Positive

illusions, jealousy and commitment are three powerful predictors in the length of a relationship and little research has been done on these areas together.

Lisa Dowers, a senior psychology major, began questioning females' inconsistent behaviors towards threats in relationships. "Human behavior is one of the facets which I find myself aiming to know more about," Dower says.

Dowers is preparing to present her findings at the MSUM Student Academic Conference. Her project is looking at females in relationships and how positive illusions affect jealousy and commitment in both positive and negative ways. "Contrasting to the positive views that are

associated with high commitment I believe I will find less commitment in those with positive illusions," Dowers explained.

She is currently conducting an experiment to determine how females react in threatening situations versus non-threatening situations.

The results will impact knowledge we have on how relationships are maintained, which will direct further research. Dowers stated, "My hypothesis for this research is something that the average individual can relate to and it can be easily applied to everyday behavior."

After attending the Student Academic Conference last year, Dowers immediately knew she wanted to be a presenter. She feels that it is not only a great learning experience, but also an opportunity to get her research out into the eyes of the public.

Moorhead gangs: 'A very sensitive subject'

By: Matthew Beckman

All those times parents told their kids to stop flashing gang signs in their Facebook pictures actually count for something, as even a town like Moorhead has its own gang population.

Crystal Smith, a junior in the criminal justice program, will be presenting "Moorhead Gangs."

"I've always been interested in crime shows and mysteries and stuff," Smith said.

Smith chose to focus her presentation on gangs in Moorhead because she was curious herself.

"It's going to be hard to present it in a way that won't sensationalize it," Smith said. "It's a very sensitive subject ... I feel like it will be hard to do it ethically."

Smith has made herself familiar to Moorhead police by taking part in Police Explorers, a classroom and exercise based program to teach people aged 15 to 21 years old how to think and react like an actual officer. She has also participated in ride-alongs, sitting in the passenger seat of a patrol officer's squad car during a shift to shadow their typical activities.

Chris Martin, the detective in charge of gang and narcotics investigations, has been a major source of information for Smith. She's also spoken to MSUM psychology professor Nick Leonard, who has done psychology work in downtown Chicago with gang families.

"Moorhead gangs are more focused in drug trafficking than gang violence," Smith said. She added gangs in Moorhead are often part of larger national gangs, but lack in-depth relations. Most members are older and aren't as involved as gang branches that are based in major cities.

Crystal Smith

Poet teaches others to enjoy his art

Written by: Tyler Anderson

In an age of MP3 players and digital distractions, poetry can seem a thing of the past. Logan Herold, an MSUM senior majoring in English, sees it differently.

A poet himself, Herold practices one of the world's oldest art forms. But despite thousands of years in popularity, a passion for lines and verses is not always easy to find. In his studies, Herold often wonders why poetry fell out of favor with a younger generation. The answer, he believes, is in the way we learn it.

"We teach people to analyze poetry on such a literal level," Herold said. "I want people to respond to how they see the image, how they feel about it, how it makes them react. That's the way people generally respond to music."

Logan Herold

According to Herold, the emotional appeal and engaging rhythm of a good song can also be found in many poems. He wishes more people made the comparison, explaining that poets like Allen Ginsberg can conjure the same haunting energy as Billie Holiday, Flogging Molly and other musical legends.

Borrowing a term from the Spanish poet Federico Garcia Lorca, Herold calls

that energy "duende," or the power to evoke physical sensations in the listener. Lorca explained the concept as a kind of inner struggle, unconscious in nature, through which art can be experienced at an instinctive level. This effect, Herold contends, is what makes us remember our favorite music and poetry best.

"You hear it and you can't get it out of your head," Herold said. "If you don't have that feeling, that sense of 'duende,' you just have a bunch of pretty words written."

Using this idea, Herold wants to remind students that poetry isn't just for literary buffs and that it requires no special study to enjoy. He knows his approach may draw disapproval from die-hard poetry enthusiasts, but he's more interested in spreading the word than arguing with any critics.

"If it gets people talking about it, I'm happy," Herold said. Herold's own poetry has been published in MSUM's annual literary magazine "Red Weather" and he will be reading his work at the 2011 Sigma Tau Delta International Convention in Pittsburgh this coming March.

Fashion in Focus

Story and Photos By Natalie Lindberg

Many people love all the elements of fashion from the unique clothes that are worn, the detailed makeup, to the offbeat designers, celebrities, and models.

Lets face it, one of the most cutthroat, competitive, and thrilling industries is the fashion Industry. But the models and designers aren't the only ones on the forefront of fashion.

Megan Mack and Traci Burke are both studying art and photography at MSUM. Mack and Burke are doing a powerpoint presentation on how the fashion industry has evolved with the art of photography for the 2011 spring student academic conference.

Fashion is a way of expressing my ideas and I feel like I have more of a connection with the camera, says Mack.

Fashion and photography have lots of things in common with how commercial photography and fashion are both about staying on top of trends and experimenting.

I believe that fashion photography has changed through the years by becoming more conceptual with how they «sell» the clothing and products; in earlier years fashion photography was very

commercial in the way that products were displayed and how things were much more catalog than high fashion, says Burke.

With advanced editing programs and digital photography getting the perfect image has been made easier and more accessible.

“Fashion photography, fashion advertisement, and even how the media portrays the designers clothing has changed,” says Mack.

Mack and Burke are hoping to open the eyes of people at the student academic conference and demonstrate of how the camera lens can capture the true essence and beauty of fashion.

Traci Burke

Megan Mack

Protecting your children on the Internet playground

By: Dylan Jacobson

The next time you log onto Facebook or meet someone new in a chat room, Taunia Tigs urges you to stop and think. By allowing a stranger on your computer screen, you are allowing a stranger into your living room. Tigus wants you to keep in mind how close your Facebook friends really are.

What started as an oral presentation for her media ethics class has become her presentation for the Student Academic Conference: “The Internet and Pedophiles, Are Your Children at Risk?” Along with being a student, Tigs is a mother of three young girls and her presentation topic is close to her heart. “As parents, it is very important that we take time, be aware and be diligent of protecting our kids; you can’t just expect that somebody else is going to,” Tigs says. Autonomy is what makes the Internet an ideal hangout for predators. It is a crime that is almost impossible to persecute. “All they need is a different computer or a different username,” said Tigs.

While the Internet can be dangerous, Tigs stresses knowledge is power against pedophiles, and gives these tips for safer Internet surfing:

Taunia Tigs

- Educate kids to let them know what they might encounter online and to respond.
- Use passwords and Internet safety options.
- Keep the computer in an open room and always be around when kids are online.

Tigs did admit she is a bit nervous for the conference. She said: “I wasn’t sure at first that my paper would be worthy.” However, her excitement outweighs anything else. “Not every university offers an opportunity for its students like this. I think this is a great opportunity and if I didn’t take advantage of it, id probably regret it later.”

Students join cancer research on campus

By Kristin Kirtz

NHE1 is a sodium hydrogen exchanger. No one knows what that means, right? Wrong. MSUM junior Rubi Gutierrez does.

Along with six other students, Gutierrez is involved with cancer research on campus, working side-by-side with Dr. Mark Wallert and Dr. Joseph Provost. Although Gutierrez was new to this study last semester, this research has been going on for a few years.

“I went to research night and heard about Dr. Wallert and Dr. Provost’s research and I thought it sounded like a good experience, so I applied,” Gutierrez said.

When Gutierrez found out she got the job, she went hard to work in the lab. Each individual person has their own specific experiment to perform.

“My job is to take three different kinds of cell lines and stimulate them with stress fiber formations, which are thought to be responsible for cancer cells moving, and I am hoping to prove that NHE1 is responsible for stress cell formation,” said Gutierrez.

If that didn’t make any sense to you, don’t worry. In plain English, Gutierrez is trying to prove that a certain protein is to blame for cancer cells moving.

“So far I’ve gotten really good results and we are making really good progress,” Gutierrez said.

At the end of all of this, the ultimate goal is to publish a medical paper about their discovery.

Rubi Gutierrez studying cells in the lab.

Theatre Arts Expo

Stop Kiss

Produced by THTR 490 Practical Studio

“A poignant and funny play about the ways, both sudden and slow, that lives can change irrevocably,” says Variety. After Callie meets Sara, the two unexpectedly fall in love. Their first kiss provokes a violent attack that transforms their lives in a way they could never anticipate.

An entirely student produced play from directors and actors, to stage management and design. See MSU Moorhead students put theory into practice in this contemporary play performance.

*90-minute presentation
in Glasrud Auditorium, Weld Hall*

1:00 P.M.

If You Give A Mouse A Cookie

Produced by THTR 469 Theatre Internship

Let's say you're standing around the kitchen, minding your own business, when a mouse in coveralls wearing a backpack shows up. What would you do? See how a curious kid finds himself figure skating on scrub brushes, wrestling boa constrictors and climbing mountains when an innocent milk-and-cookie snack time goes from mishap to calamity to catastrophe faster than the twitch of a whisker!

Based on the popular children's book of the same title, this professional internship allows MSU Moorhead theatre arts students a unique touring experience. This group of actors performs February through April to groups across Minnesota and North Dakota. Reconnect with your childhood in this truly charming theatrical endeavor.

*45-minute presentation
in Glasrud Auditorium, Weld Hall*

2:30 P.M.

The Musical of Musicals

Produced by THTR 490 Practical Studio

The Musical of Musicals (The Musical!) is a musical about musicals! In this hilarious satire of musical theatre, one story becomes five delightful musicals, each written in the distinctive style of a different master of the form, from Rodgers and Hammerstein to Stephen Sondheim. This comic valentine to musical theatre was the longest running show in the York Theatre Company's 35-year history before moving to Off-Broadway. “Witty! Refreshing! Juicily! Merciless!”—Village Voice.

An entirely student produced play from directors and actors, to stage management and design. See MSU Moorhead students put theory into practice in this unique musical theatre performance.

*2-hour presentation at
Gaede Stage, Dille Center for the Arts*

10:10AM – 10:50AM • CMU 2nd Floor Hallway

Hands-on cultural learning; the story of a birch bark lodge

Athena Aitken

Poster/Display #8

10:10AM – 10:50AM • CMU 2nd Floor Hallway

Neologisms: the death of English and birth of new American

Eric Olson

Poster/Display 10

1:00PM – 1:40PM • CMU 2nd Floor Hallway

Prehistoric Settlement in Swift County, Minnesota

Katie Jacobson

Poster/Display 11

1:40PM – 2:20PM • CMU Basement Hallway

Anthropology

Preserving the Past for the Future: Curation in Archaeological Practice

Brett Tanselle, Danielle Truitt

Poster/Display #4

1:40PM – 2:20PM • CMU Basement Hallway

Wet Site Archaeology: An Overview

Sara Kram

Poster/Display #7

3:30PM – 4:10PM • CMU 2nd Floor Hallway

Art and Design

“Malleable” : A Presentation of Sarah Poepping’s Photographic Series

Sarah Poepping

Oral Presentation

10:10 – 10:30 • CMU 203

A Disappearing and Reappearing Act: The Iconic Beard of Ancient Egyptian Pharaohs

Catherine Wack

Oral Presentation

10:30 – 10:50 • CMU 203

Conference Participants Listed by Department

Times and locations may have changed since the publication of this document. Please click on the Dragon logo at the bottom of the page to go to the Student Academic Conference website for the most up-to-date information.

Earth Art of the 1960s and 70s

Lewis Burris

Oral Presentation

1:00 – 2:20 • CMU 203

Fashion Through The Lens

Traci Burke, Megan Mack

Oral Presentation

9:50 – 10:10 • CMU 203

Just Do It: Nike's Takeover of Sports Design and Marketing

Addie Borgh

Oral Presentation

1:00 – 2:20 • CMU 203

Lasting Projects of the New Deal in Fargo/Moorhead

Jessica Lambertz

Oral Presentation

9:30 – 9:50 • CMU 203

The Cultural Relevance of Comics

Rebekah Wicklund

Oral Presentation

1:00 – 2:20 • CMU 203

The Direction of Interactive Design

Jacob Christenson

Oral Presentation

1:00 – 2:20 • CMU 203

The Power Of Questions: Divergent Thought in the 21st Century

Moriah Thielges

Oral Presentation

2:30 – 2:50 • CMU 203

Early Photographic Process: Van Dyke Brown.

Kelsey Cain, Madalyn Mickelberg

Poster/Display #15

10:10AM – 10:50AM • CMU Basement Hallway

Graphic Design and the proper way to layout a poster

Katie Hamness, Kaity O'Malley, Amber Nelson, Jacob Christenson, Whitney Lunn

Poster/Display #13

10:10AM – 10:50AM • CMU 2nd Floor Hallway

How to Make and Use a Pin Hole Camera

Tiffany Boecker, Kayla Lagred, Dan Marsh

Table Display #12

10:10AM – 10:50AM • CMU 2nd Floor Hallway

Petrichor Images: Vanessa Gamelin Photography

Vanessa Gamelin

Poster/Display #17

1:40PM – 2:20PM • CMU Basement Hallway

The Unknown Work of Vivian Maier

Julian Dahlquist

Poster/Display #16

2:30PM – 3:10PM • CMU 2nd Floor Hallway

Wedding Photography by MwPhotography

Melissa Wentworth

Table Display

3:30PM – 4:10PM • CMU 2nd Floor Hallway

Athletic Training

Acupuncture in our lives

Yusuke Nejo

Poster/Display 25

9:30:00 AM – 10:10:00AM • CMU Basement Hallway

Concussions: Can the effects linger for decades?

Gregory Martodam

Poster/Display 24

9:30:00 AM – 10:10:00AM • CMU 2nd Floor Hallway

Conference Participants Listed by Department

Times and locations may have changed since the publication of this document. Please click on the Dragon logo at the bottom of the page to go to the Student Academic Conference website for the most up-to-date information.

Cystic Fibrosis

Rachael Ochs

Poster/Display 22

10:10AM – 10:50AM • CMU Basement Hallway

Dazed and Confused

Alexandra Mahmood

Poster/Display 19

10:10AM – 10:50AM • CMU Basement Hallway

KAATSU Training

Takuto Kondo

Poster/Display 21

1:00PM – 1:40PM • CMU Basement Hallway

Migraines

Mark McIntire

Poster/Display 23

1:00PM – 1:40PM • CMU 2nd Floor Hallway

Vocal Cord Disorder: The Mistaken Wheeze

Amber Brandenburger

Poster/Display 20

3:30PM – 4:10PM • CMU Main Lounge

Whats So Fishy About Fish Oils

Joshua Werk

Poster/Display 18

3:30PM – 4:10PM • CMU 2nd Floor Hallway

Biology

A test of a method for mass – training fish for applications in aquaculture.

Justin Olson

Oral Presentation

9:50 – 10:10 • CMU 205

Do trematode cercariae, Ornithodiplostomum ptychocheilus, employ inclusive fitness by acting as a food source for their intermediate host fathead minnow, Pimephales promelas?

Tara Eichhorn

Oral Presentation

10:10 – 10:30 • CMU 205

Effect of order of stimulus presentation on releaser – induced recognition learning

Tara Eichhorn, Jessica A Michelson, Justin A Olson,

Michelle M Toren, Kiaja R Undersander

Oral Presentation

10:30 – 10:50 • CMU 205

Emergence of Antiviral Drug Resistance in Herpesviruses

Jasen Walker

Oral Presentation

1:20 – 1:40 • CMU 205

Farming Techniques in Costa Rica vs. United States

Jacinta David, Joanna Lock, Jase Beck

Oral Presentation

2:30 – 2:50 • CMU 205

Money Doesn't Grow on Trees: The environmental, economic, and global costs of deforestation in Costa Rica.

Danielle Kuperus, Nancy Stenger

Oral Presentation

2:00 – 2:20 • CMU 205

Organics and Inorganics of America and Costa Rica

Lindsay Mitlyng, Jennifer Kelley

Oral Presentation

1:00 – 1:20 • CMU 205

Conference Participants Listed by Department

Times and locations may have changed since the publication of this document. Please click on the Dragon logo at the bottom of the page to go to the Student Academic Conference website for the most up-to-date information.

Shopping at Farmers Markets vs. Large Supermarkets

Phillip Schotte, Heather North

Oral Presentation

1:40 – 2:00 • CMU 205

The effect of multiple infections of a brain – encysting trematode on the optomotor response of fathead minnows.

Jessica Michelson

Oral Presentation

9:30 – 9:50 • CMU 205

A Decade of Painted Turtle Ecology in Clay County, Minnesota What Have We Learned?

DeAnna Rastedt, Ashley D. Remmick, Nicole D. Brokmeier, Justin A. Olson, Jason L. Walker, Jennifer D. Ringgold, Sarah E. Martinson

Poster/Display 35

9:30 – 10:10 • CMU Basement Hallway

A Test For Phenotypic Plasticity In The Ontogeny of Skeletal Ossification in Larvae of Two Species of Cichlids

Feba Hauer, Kevin Kinter, Alane Sauer, Jessica Nymark, Kevin Kinter

Poster/Display 40

9:30 – 10:10 • CMU Basement Hallway

Bacillus

Dana Dugger

Poster/Display 47

9:30 – 10:10 • CMU Basement Hallway

Behavioral modifications of Pimephales promelas infected with the brain parasite Ornithodiplostomum ptychocheilus in response to light cues.

Michelle Toren

Poster/Display 50

9:30 – 10:10 • CMU Main Lounge

Bi – Parental Teaching by Fish

Nicole Savageau, Kim Fritel

Poster/Display 41

9:30 – 10:10 • CMU Main Lounge

Common Garden Experiment in Convict Cichlid

Randy Sutrisno, Phillip Schotte

Poster/Display 38

9:30 – 10:10 • CMU 2nd Floor Hallway

Does population carrying capacity in protists scale exponentially with temperature?

Ariel Gray, Ashlyn Kuklock, Jaclynn Kuklock

Poster/Display 31

10:10AM – 10:50AM • CMU Basement Hallway

Drifts and Shifts of Influenza Virus and Immune Response

Finlay Marube

Poster/Display 46

10:10AM – 10:50AM • CMU Basement Hallway

Experimental infection of fat head minnows, Pimphelas promelas, with the brain worm Ornithodiplostomum ptychocheilus, and testing if the infection leads to chemical signals being released from the infected fish

Kiaja Undersander

Poster/Display 51

10:10AM – 10:50AM • CMU Main Lounge

Exploration of the relationship between the Cassava plant to the Taino people of the Greater Antilles.

Kimberly Iwen, Nathaniel Jacob Arneson

Poster/Display 27

10:10AM – 10:50AM • CMU Main Lounge

Conference Participants Listed by Department

Times and locations may have changed since the publication of this document. Please click on the Dragon logo at the bottom of the page to go to the Student Academic Conference website for the most up-to-date information.

Feeding level and size – pairing impacts on intraspecific competition between fathead minnows

Harrison Pantera, Brent Vandal

Poster/Display 32

10:10AM – 10:50AM • CMU Main Lounge

In Silico Analysis and Molecular Dissection of the PPKK:PDRP Interaction

Mitchell Lakner, Sara Aleem, Nivedha Manohar

Poster/Display 28

1:00PM – 1:40PM • CMU Basement Hallway

Investigations of biochemical and molecular mechanisms of systemic acquired resistance in *Cucumis sativus*

Natalia Belavina

Poster/Display 30

1:00PM – 1:40PM • CMU Basement Hallway

Lyme Disease Prevalence in Southeastern North Dakota

Daisy Boatey

Poster/Display 43

1:00PM – 1:40PM • CMU Basement Hallway

Match.com – What's your blood group?

Heather Sorenson

Poster/Display 48

1:00PM – 1:40PM • CMU Main Lounge

Parental teaching by fish biparental

Kim Fritel, Nicole Savageau

Poster/Display 39

1:40PM – 2:20PM • CMU Basement Hallway

Preliminary genetic analysis of *Lasioglossum (Dialictus) spp.* (Hymenoptera: Apoidea) of western Minnesota tallgrass prairie.

Nancy Stenger, Karsten Nash, Rachel Walsh,

Emmanuel Fohle, Angela Mccollam

Poster/Display 26

1:40PM – 2:20PM • CMU Basement Hallway

Science Discovery Camp for Middle School Students

Mitchell Lakner, Renek Jorgenson

Poster/Display 29

1:40PM – 2:20PM • CMU Main Lounge

Shining a Light on Acne

Sabrina Sam

Poster/Display 49

1:40PM – 2:20PM • CMU 2nd Floor Hallway

Testing Inheritability of Shy/Bold Personality Traits in Zebrafish Offspring

Cory Sailer, Sonny Radenic, Randy Sutrisno

Poster/Display 37

2:30PM – 3:10PM • CMU Main Lounge

The affects of exotic earthworms on Big Bluestem, *Andropogon gerardii*, prairie plants

Amy Moorhouse, Brittany Beers

Poster/Display 36

2:30PM – 3:10PM • CMU Main Lounge

The Role of NHE in Directional Cellular Migration

Abbey Walski

Poster/Display 44

2:30PM – 3:10PM • CMU 2nd Floor Hallway

The significance of the RSK and ROCK phosphorylation sites of NHE1 and their role in the regulation of cellular migration

Andrew Dornbusch

Poster/Display 45

2:30PM – 3:10PM • CMU 2nd Floor Hallway

Understanding the neurological basis of LSD

Manasvi Kulshrestha

Poster/Display 42

3:30PM – 4:10PM • CMU Main Lounge

Conference Participants Listed by Department

Times and locations may have changed since the publication of this document. Please click on the Dragon logo at the bottom of the page to go to the Student Academic Conference website for the most up-to-date information.

Urban Canada Geese in Moorhead, Minnesota: How Many are Too Many?

DeAnna Rastedt, Kyle Kosak, Christina Sadowski

Poster/Display 33

3:30PM – 4:10PM • CMU Main Lounge

Urban Turkeys: Survey of Wild Turkey Distribution and Numbers, Human – Turkey Interactions, and Public Opinion in the Red River Valley in Cass (North Dakota) and Clay (Minnesota) Counties (2003 – 2010)

DeAnna Rastedt, Ashley D. Remmick, Jasen L. Walker

Poster/Display 34

3:30PM – 4:10PM • CMU Main Lounge

Corrick Center for General Education

Designer Babies

Alyssa Olson, Shana Heuer, Caitlyn Holowell, Ivy Schueller, Yalonda Nelson

Debate

2:50 – 3:20 • CMU 205

Chemistry

Does Piagetian Cognitive Ability Level Affect Student Ability To Accurately Perceive And Interpret Environmental Threats?

Amanda Fay, Abbi Wittner, David Bye

Oral Presentation

9:30 – 9:50 • CMU 207

Impact of NHE1 Phosphorylation by Ribosomal S – 6 kinase and RhoA kinase on ERM binding and cell motility

Tony Nguyen

Poster/Display 23

1:00–1:40 • CMU 2nd Floor Hallway

Investigation of calcineurin B homologous protein isoform 2 regulation of Na⁺/H⁺ exchanger. A potential novel therapeutic target to treat non – small cell lung cancer.

Kristina Anderson

Oral Presentation

1:20–1:40 • Ballroom D

Investigation of calcineurin B homologous protein isoform 2 regulation of Na⁺/H⁺ exchanger. A potential novel therapeutic target to treat non – small cell lung cancer.

Kristina Anderson

Poster/Display 161

9:30AM – 10:10 AM • CMU Basement Hallway

A New Procedure for the Acylation of Pyrazolidinone Rings Using Mukayamas Reagent

Amie Nowacki

Poster/Display 63

9:30 – 10:10 • CMU Basement Hallway

A New Procedure for the Acylation of Pyrazolidinone Rings Using Mukayamas Reagent

Amie Nowacki

Poster/Display 62

9:30 – 10:10 • CMU Basement Hallway

A Novel Method to Generate IR Spectra of Solutes in Solution State

Etsehiwot Gebreselassie, Ruvimbo Chitemere

Poster/Display 53

9:30 – 10:10 • CMU Basement Hallway

Conference Participants Listed by Department

Times and locations may have changed since the publication of this document. Please click on the Dragon logo at the bottom of the page to go to the Student Academic Conference website for the most up-to-date information.

Assessment of Rsk and Rock Phosphorylation of NHE1 on Cell Proliferation and Migration.

Cory Weidman

Poster/Display 65

9:30 – 10:10 • CMU Basement Hallway

Conjugate Addition of Malononitrile to Unsaturated Carbonyls

Kiesha Bullock

Poster/Display 59

9:30 – 10:10 • CMU 2nd Floor Hallway

Conjugate Additions to Unsaturated Carbonyls

Pedro Flores Gallardo

Poster/Display 61

10:10AM – 10:50AM • CMU Basement Hallway

Copper(II) Complexes of Pyridine – 2, 6 – bisamide Ligands

Kaitlyn Funk, Michelle Branch

Poster/Display 54

10:10AM – 10:50AM • CMU Basement Hallway

High – yield synthesis of the semicarbazide adduct of cyanoborane

Ismael Banla, Taehyun Kim

Poster/Display 55

10:10AM – 10:50AM • CMU 2nd Floor Hallway

Improved Procedures for the N – Alkylation of Pyrazolidinone Rings Using Aldehydes and Sodium Borohydride

Jasen Walker

Poster/Display 58

2:00–2:40 • CMU Basement Hallway

In vivo EPR signal reduction of spin – labeled free radicals in living mice

Victoria Honetschlager

Poster/Display 64

1:00PM – 1:40PM • CMU Basement Hallway

Measuring NHE activity with fluorescence microscopy.

Nicholas Berthelsen

Poster/Display 67

1:00PM – 1:40PM • CMU Main Lounge

Preparation of Imino Esters and Investigation of their Conjugate Additions to Unsaturated Carbonyls

Arjun Kafle

Poster/Display 60

1:40PM – 2:20PM • CMU Basement Hallway

Preparation of Tetrahydroisoquinoline – Derived Azomethine Ylide Dipoles and Investigation of their Cycloaddition to Unsaturated Acyl Pyrazolidinones

Zachary Morseth

Poster/Display 57

1:40PM – 2:20PM • CMU Basement Hallway

Synthesis and Characterization of a Dye – Sensitizer

Samantha Stewart – James, Gifty Fokuo

Poster/Display 52

1:40PM – 2:20PM • CMU 2nd Floor Hallway

Synthesis of a new Cyanoborane polymer with a trigonal planar boron.

Taehyun Kim , Ismael Banla

Poster/Display 56

1:40PM – 2:20PM • CMU 2nd Floor Hallway

The Role of NHE1 Transmembrane Protein in Stress Fiber Formation

Rubi Gutierrez

Poster/Display 66

2:30PM – 3:10PM • CMU 2nd Floor Hallway

Conference Participants Listed by Department

Student Academic Conference

13th Annual

*Meet us at Minnesota State University Moorhead in the CMU
April 19th 2011*

Criminal Justice

Moorhead Gangs

Crystal Smith

Oral Presentation

3:20 – 3:40 • CMU 203

Construction Management

Construction Management Capstone Experience – Multi – unit housing development

Corey Bronczyk, Joshua Ridler, Lucas Menton

Oral Presentation

3:30 – 3:50 • CMU 207

Capstone Experience – BDM Constructors

Bryan Franklin, Michael Kirby, Derek Bomstad

Poster/Display 70

9:30 – 10:10 • CMU Main Lounge

CM496 Downtown Moorhead Project

Anthony Erickson, Adam Brammer

Poster/Display 68

9:30 – 10:10 • CMU 2nd Floor Hallway

Noodles And Company

Phillip Eslinger, John Bell, John Bellon

Poster/Display 72

1:00PM – 1:40PM • CMU 2nd Floor Hallway

Sub – Zero Contractor's Recreational Renovation

Jordan Korczak, Kelly Ham, Justin Filas

Poster/Display 69

1:40PM – 2:20PM • CMU 2nd Floor Hallway

Supercross Track

Christopher Roach, Zachary Hill, Anup Adhikari, Ryan Seidel

Poster/Display 71

1:40PM – 2:20PM • CMU 2nd Floor Hallway

Communication Studies

A Postmodern Pyramid: The Rhetoric in Radiohead's Pyramid Song

Grant Ertl

Oral Presentation

9:50 – 10:10 • CMU 227

An Assessment on the Republican Candidates for the 2012 Election.

Danielle Saul

Oral Presentation

1:20 – 1:40 • CMU 227

Beautifully Bald: Learning to Live with Alopecia through Self – Disclosure and Friendship

Brittany Lazur, Courtney Johnson

Oral Presentation

10:30 – 10:50 • CMU 227

Discovering Bangladesh: Halfway Around The World

Tony Dahlen

Oral Presentation

9:30 – 9:50 • CMU 227

Hunger – Something to Grumble About

Rebecca Spanier, Karly Mackedanz

Oral Presentation

1:40 – 2:00 • CMU 227

Conference Participants Listed by Department

Times and locations may have changed since the publication of this document. Please click on the Dragon logo at the bottom of the page to go to the Student Academic Conference website for the most up-to-date information.

Identifying characteristics of conspiracy rhetoric in David Ray Griffin's The Mysterious Collapse of World Trade Center 7.

Matthew Lech

Oral Presentation

10:10 – 10:30 • CMU 227

Living Learning Communities and retention rate.

Allison Berger, Jeanne Hettich, James Borgen

Oral Presentation

2:00 – 2:20 • CMU 227

Volunteering: All Paws Down

Katelin Hansen, Kathrine Cork, Keely Huso

Oral Presentation

1:00 – 1:20 • CMU 227

Computer Science and Information Systems

Make the next facebook: Developing a webapp on Google App Engine

Sri Krishna Kadimisetty

Workshop

1:40PM – 2:10PM • Ballroom D

Economics

Bumper Expectations: The Effect of Revenue Insurance on Yield Volatility

Nicholas Pates

Oral Presentation

10:10 – 10:30 • Ballrom A

Determinants of the Price of Smartphones

Robert Eden

Oral Presentation

10:30 – 10:50 • Ballrom A

Does the National Basketball Association's Soft Salary Cap Increase Competitive Parity?

Kegan Reiswig

Oral Presentation

2:00 – 2:20 • Ballrom A

Economic Development in Indian Country: Best Practices and Possibilities

Glen Marshall

Oral Presentation

9:30 – 9:50 • Ballrom B

Effects of Employment on Minnesota State University Moorhead Students' Grades

Rachel Metzger

Oral Presentation

1:00 – 1:20 • Ballrom B

Every Drop Counts: An Analysis of International Water Markets and Pricing Policies

Jacob Larsen

Oral Presentation

1:00 – 1:20 • Ballrom A

Expansion Outlook: Fergus Falls, MN

Laura Trosdahl

Oral Presentation

2:30 – 2:50 • Ballrom A

Guatemala's Road to Development: An Economic Assessment.

John Thein

Oral Presentation

3:30 – 3:50 • Ballrom A

How Employment Opportunities Affect University Retention

Luke Sperling

Oral Presentation

9:50 – 10:10 • Ballrom A

Conference Participants Listed by Department

Times and locations may have changed since the publication of this document. Please click on the Dragon logo at the bottom of the page to go to the Student Academic Conference website for the most up-to-date information.

Increased Sales in the Fourth Quarter: How Wal – Mart’s Sales Impact the Retail Industry

Aaron Ato – Davies

Oral Presentation

2:50 – 3:10 • Ballrom A

In – Kind Transfers of Payment

Joseph Bottrell

Oral Presentation

10:30 – 10:50 • Ballrom B

Refugees, Opportunities, and Fargo: An Economic Relationship

Vaneesha Dusoruth

Oral Presentation

1:40 – 2:00 • Ballrom A

The Role of Trade and Foreign Direct Investments in the Economic Growth of Sub – Saharan African Countries.

Zuweina Mohamed

Oral Presentation

3:10 – 3:30 • Ballrom A

The U.S. Corporate Tax System: Is Uncle Sam Encouraging Investment Abroad?

Peter McCallum

Oral Presentation

1:20 – 1:40 • Ballrom A

Toward a Sustainable Textbook Future – The Free, Open, and Digital Revolution

Allison Goldberg, Kyle Blake, Margaret Olatunbosun

Oral Presentation

9:30 – 9:50 • Ballrom A

University Housing Policy and the Bottom Line: Strange Bedfellows or Not?

Robert Wright

Oral Presentation

9:50 – 10:10 • Ballrom B

What factors influence the location decisions of service-sector firms in Minnesota and North Dakota?

Laura Lien

Oral Presentation

10:10 – 10:30 • Ballrom B

ECON – – Economics

Transition to Sustainable Energy

Fariha Rahman

Poster/Display 73

3:30PM – 4:10PM • CMU Main Lounge

Elementary and Early Childhood Education

Comparing a Children’s Film to the Literary Work that Inspired It

Amber Short

Poster/Display 74

9:30 – 10:10 • CMU 2nd Floor Hallway

English

“A Fine Frenzy”: Gender Dynamics in “A Midsummer Night’s Dream”

Vanessa Perkins

Oral Presentation

1:40 – 2:00 • CMU 101

An Animal Kingdom of Mishaps

Crystal Pound

Oral Presentation

9:30 – 1:40 • CMU 101

Conference Participants Listed by Department

Times and locations may have changed since the publication of this document. Please click on the Dragon logo at the bottom of the page to go to the Student Academic Conference website for the most up-to-date information.

“Where is the Duende?”: An Approach to Understanding Poetry for All Readers

Logan Herold

Oral Presentation

2:00 – 2:20 • CMU 101

Down the Tracks: An Ecocritical Examination of Progress and Nature from Walden to Today

Matthew Pullen

Oral Presentation

9:30 – 1:40 • CMU 101

Henry David Thoreau’s Vision of Man and Nature

Chitrasen Parbhunath

Oral Presentation

9:30 – 1:40 • CMU 101

Hijacking Cultural Momentum: Steinbeck’s Use of the Archetypal Image of Christ in The Grapes of Wrath

Michael Lobdell

Oral Presentation

2:30 – 2:50 • CMU 101

How Atheists Can Get Into Heaven: Christopher Hitchens and the Catholic Church

John Goerke

Oral Presentation

3:10 – 3:40 • CMU 101

Return to the Farm

Emily Welin

Oral Presentation

9:30 – 1:40 • CMU 101

The Land of 9, 999 Lakes

April Matson

Oral Presentation

9:30 – 1:40 • CMU 101

The Necessity of Nature Writing

Kai Thorstad

Oral Presentation

9:30 – 1:40 • CMU 101

The Undeclared Student: Exploration and Strategies

Kimberly Ehrlich

Oral Presentation

2:50 – 3:10 • CMU 101

Chasing Lincoln’s Killer

Hannah Frink

Poster/Display 75

9:30 – 10:10 • CMU 2nd Floor Hallway

Film Studies

Dead Again: A Senior Seminar Film

Marcus Mann, Scott Tostenrud

Film Screening

9:30 – 9:50 • LO 0102

“The Unseen”

Ashley Alsum

Oral Presentation

1:00 – 1:20 • LO 0102

A Reappraisal of Voice – over Narration

Tyler Sorensen

Oral Presentation

10:10 – 10:30 • LO 0102

Analyzing Human Rights in Science Fiction Films

Conor Holt

Oral Presentation

3:30 – 3:50 • LO 0102

Conference Participants Listed by Department

Times and locations may have changed since the publication of this document. Please click on the Dragon logo at the bottom of the page to go to the Student Academic Conference website for the most up-to-date information.

Comic Robots in Sci – Fi Films Or I Know What You Did Last Childhood

Fernanda deOliveira

Oral Presentation

2:50 – 3:10 • LO 0102

Film 472 Advanced Video Production Client Videos

Heather Alvar, Joshua Resch, Benjamin Pimlott

Oral Presentation

2:30 – 3:30 • LO 0101

Lineage: Shooting on Location

Joseph Kramer, Tara Kramer

Oral Presentation

9:50 – 10:10 • Ballroom D

Redecorating Film Adaptation: Problems and Possibilities

Jesse Balzer

Oral Presentation

1:40 – 2:00 • LO 0102

The Boy with Stumbling Blocks

Jessica Zeppelin

Oral Presentation

1:20 – 1:40 • LO 0102

The Extra – Amazing Adventures of Extraman and Extragirl

Craig Larson, Mitchell Miller, Nathan Bergeson

Oral Presentation

2:00 – 2:20 • LO 0102

The Media Wargames of Peter Watkins

Troy Weets

Oral Presentation

9:50 – 10:10 • LO 0102

The Psychology of Documentary Design

Sarah Palm

Oral Presentation

10:30 – 10:50 • LO 0102

The Self in Relation to the Other: Recognizing Artificial Intelligence as Our Equal and as the Divine in Science Fiction Films

Simone LeClaire

Oral Presentation

9:30 – 9:50 • Ballroom D

The Unseen: A Senior Seminar Film

Kathleen Kretchmer

Oral Presentation

2:30 – 2:50 • LO 0102

The Years – An Exploration of Feminist Film

Kristen Conaty, Ivan Clow

Oral Presentation

1:20 – 2:00 • LO 0101

White Science Fiction of America

Hotaka Demura

Oral Presentation

3:10 – 3:30 • LO 0102

Analyzing a Synecdoche

Nicholas Collins

Poster/Display 76

9:30 – 10:10 • CMU Basement Hallway

Geoscience

On the Trash Trail

Michael Schreifels

Oral Presentation

10:30–10:50 • Ballroom D

Nickel Partitioning

Jordana Anderson, Samantha Buhr, Timothy Erickson

Poster/Display 77

1:00PM – 1:40PM • CMU 2nd Floor Hallway

Conference Participants Listed by Department
