

MOORHEAD STATE STUDENT SENATE
Moorhead, Minnesota 56560

April 30, 1974

To: President Dille
From: Steve Hegranes, President, Moorhead State Student Senate
Re: Student Health Service

At its April 29 meeting the Student Senate heard a report from Nancy Bjorndal on the Student Health Service and various meetings she has attended concerning the service. We were informed that the State College Board was considering raising the Health Service fee for next year.

It is our feeling that in light of rising costs in many other areas, one more is too much. Therefore, the Student Senate has gone on record as vigorously opposing any such increase at this time. We are informed that the Student Health Service at Moorhead State is presently operating within its budget and that no increase is necessary.

The Senate also feels that the Health Service is doing an excellent job and that the students are well satisfied with the services provided.

We urge you to make our feelings known to the State College Board when this issue is again voted on.

Thank you.
