

BACCALAUREATE SOCIAL WORK PROGRAM

ASSESSMENT OF STUDENT LEARNING OUTCOMES

Current Biennial Assessment Cycle: *Spring, 2019*

Form AS4 (B)

This form assists the Council on Social Work Education (CSWE), Commission on Accreditation (COA) in the evaluation of the program's compliance with the accreditation standards below:

- 4.0.2 *The program provides summary data and outcomes for the assessment of each of its competencies, identifying the percentage of students achieving the benchmark.*
- 4.0.4 *The program uses Form AS 4 (B) and/or AS4 (M) to report assessment outcomes to its constituents and the public on its website and routinely up-dates (minimally every 2 years) these postings.*

All Council on Social Work Education programs measure and report student learning outcomes. Students are assessed on their mastery of competencies that comprise the accreditation standards of the Council on Social Work Education. These competencies are dimensions of social work practice that all social workers are expected to master during their professional training. A measurement benchmark is set by the social work programs for each competency. An assessment score at or above that benchmark is considered by the program to represent mastery of that competency.
